Walmart Apr. 2022 – Mar. 2023
Online pickup associate Garfield, NJ

Walmart Sep. 2018 – Apr. 2022
Stocking associate Saddle Brook, NJ

PROJECTS

Herdmaster - <https://livestockapp.vercel.app>

My dad is a farmer back in Brazil and he manages his inventory with pen and paper, making it difficult to keep track of everything across numerous sheets. To assist him (and myself), I created an app that enables us to record cattle growth, health, purchases, sales, and even estimate profits. Crafted with **NextJS, ChartJS, Framer Motion, CSS Modules, ExpressJS/NodeJS, Mongoose/MongoDB**.

AcaiShop - <https://acaishop.onrender.com>

App for online acai ordering, users can choose different sizing options and add other stuff to their acai. Crafted with **Javascript, Sass, ExpressJS/NodeJS, Mongoose/MongoDB**. Using **Sendgrid** for emails and **Stripe** for payments. Using **JSON Web Tokens** for authentication. **Server side rendering with PUG**.

For more projects, please visit my portfolio at <https://pedroenriquede.com> or my github profile <https://github.com/pedroenriquede>.

EDUCATION

Bergen Community College Sep. 2023 - Present
AAS Computer Science Paramus, NJ
